**JIM GORDON CHANNELING JOHN THE BELOVED
HEALING MSC AZ PROPERTY, FOUNDATION PERSONALITIES 43**

March 3, 1988

Jim Father mother God, at this time we ask for your blessings. We ask for your light and love to come forward at this time, to surround and fill, guide and protect each one of us. We ask for the uplifting spirit to be present, the spirit of the Holy Spirit, the breath of God. We ask for the uplifting spirit to bring forth wisdom and truth, understanding and clarity at this time so that in this sharing, in this time, in this moment in God, it all might be made clear and that the understandings needed at this moment come forward. We ask also the blessings of loving, of peace, and of joy be present now and move throughout each one and move throughout the environment of this household and this land, bringing forth the blessings of love, joy, and peace which is the consciousness of soul. And may each of here awaken to our own soul potential and begin to move, live, and dwell within soul more each day and may that consciousness expand outward into the world blessing this house and this land so that truly the consciousness throughout all the environment is raised to a new level. And as this land is developed and as people do move upon it, we ask that those that are attracted to this land for development be those souls that will enhance this property and not damage it, that the vibrations that they carry with them in their consciousness might be as clear as possible and as they come upon this land and dwell on it for a period of time, may

they move evermore into greater clarity. And may they enhance the consciousness and become one with the land in time. We ask also that the healing energies of this land be maintained, that the angel that dwells upon this land now awaken to the potentials of its healing and reach out to begin doing that which needs to be done, both with those that dwell on this land now and those that will come forward later. And we ask for the devas to cooperate in the process that will go on in these next few years that this land might truly awaken unto itself and share the love, share the beauty that it is with others. And as we ask the devas to cooperate with us, we share also this knowledge that we will do as little as possible to the land in the development process. We will do what we can to maintain the integrity, to maintain the beauty, and to maintain the larger pieces of plant and mineral development so that they will not be broken up or disturbed. In this way the energy lines of this property will be maintained and if for some reason we do have to disturb either plant or mineral, we ask the devas to work with us in the rearranging of these energies so they will not be so crudely disturbed, they will not be healed and come into alignment with the overall flow of consciousness and movement in the land, this land. And so we ask at this time a special blessing upon this land oh, father mother God and from the Christ and from the traveler and from the devas and from the angels, that all come into total alignment with themselves and in full cooperation as men and women and children come upon the land to share and partake of its beauty, its grace, its energy, and its healing. And for all this we are grateful, knowing that when asked it is done and so father we at this time ask, we ask as sons of the living God, we

ask as Christ conscious individuals, knowing that in doing so what is done for it is said ask in my name and it shall be given. And so as the Christ we ask knowing that it shall be done, it shall be given, and for this we give thanks. I John come once again to share and to bring clarity and understanding to issues that might lie within your consciousness at this time and to bring forth further understandings of developments as we wish to share them. First, let me make clear that what the disturbances were earlier today had to do with a group of individuals that were in spirit at the time from another part of this planet. They were asleep and out taking a class and heard us talk of the traveler consciousness and wished to partake of the news, the knowledge, and the understanding and it was their clamoring to get an understanding and to partake of the knowledge being shared with you personally that created the disturbances of energy as we were sharing. So it was best at that time that we withdraw in order to move into a consciousness of assisting them away from this area so that there would not be that pressure on us or upon the service of flow as it is taking place now or upon either of you too or the land itself. That has now been taken care of and a new energy of sealed protective light has been placed around this land and around each of us here so that we are protected in this process of sharing and the flow will be maintained and more clear capacity because of this protection. First, let us share a little bit further having to do with your health. It is good that you are getting out and moving around, for this will help to bring about the stability within yourself, both within the inner ear and within your footing, for walking will help to bring about a sense of balance and will also strengthen the overall system so that you are more

sure in your steps and the direction that you are going. So when you find opportunity, do move, do get up, and do find yourself moving outside or inside the house as much as possible in order to allow the healing energies to move within the inner ear and perfect the healing that we are trying to bring forward for you. You at times may feel or hear a popping sound with inner ear, especially the right one, as we begin to work on this inner obstruction with inner imbalance that is there. If you do hear this popping noise or you do feel a pressure change, do not be concerned. Only know that we are working with these energies in you and around you trying to bring about a level of healing that you have not experienced up till now. We are not sure how much as of yet we will be able to take care of for you, if we will be able to restore 100 percent capacity to the balance and to the inner ear function. We will do all we can in bringing this about. It also has something to do with sinus cavities and so we are going to begin to work on your sinuses as well, trying to help clear them out and bringing a better sense of health and wellbeing in these areas as well. As to other areas of your health, we will wait until we have perfected some other avenues of flow of energy into those areas of your body in order to begin healing in these areas. We do not wish to work on too many areas at one time. We have moved out many of the poisons and some of the minor obstructions that were blocking you and we have now begun to work more within the head regions and the sinus cavities as well as the ear and the eustachian tubes and the throat. We will work in these areas for a few days and then we will begin work on the lower abdomen and possibly up into the upper abdomen as well if needed at that time. So again, be aware of this. And do

not be concerned if you do find discomfort or some rumblings in these areas for a moment. As far as the bladder is concerned, we will take that into consideration and see if we can do anything in this area for you, from our level of capacity we are not sure as of yet. It is a physical thing; therefore, it must be more dealt with in a physical manner. It is possible that psychic surgery might be a key in helping to relieve some of the pressure and obstruction of scar tissue and other materials that have accumulated. We will see in time as you shall also see in time and we will see if we can do anything at all from this level to help relieve some of the pressure and some of the problems. We are not sure, as I have said, if we will be able to do much because it is a physical karma, a physical disturbance, and these things are easier taken care of from the physical standpoint. Before going on, do you have any questions that you wish to bring forward at this time?

John I made some notes that you've undoubtedly looked at. My eyes, my diet, my back, the energy and the exercise, all of those things have been part of the physical program and I have been somewhat concerned with, especially the eyes. My vision has been due to the impairment of the eyes has been affected quite a bit. I don't see as well as I could for either distance or for reading, and whether or not anything can be done on eyes short of surgery or psychic surgery I don't know. That seems to be a very critical thing with me at this particular time.

Jim We have looked at this and this is one reason why we have begun to work within the sinus cavities themselves to try to relieve some of the pressure in this region and to relieve some of the inflammation that's still left over from the infection of shingles, the inflammation rather of shingles. And so we are working to help

relieve some of this pressure and see if we can bring some level of healing and strengthening of the tissues of the eyes in this process. We are not sure just how much can be done, again from a spiritual standpoint having to do with spiritual healing. Psychic surgery may be able to do a great deal of relieving some of the pressure and build-up of tissue in the eye, all over the surface of the eye rather, as is developing. It might help you in order to see better in this manner of removal of this tissue. It may be in time that it will require surgery other than psychic surgery, but we are hoping that that can be kept from developing to a point that that would be required. If, however, it is decided that surgery in a physical nature is the best, we will do what we can to speed up the process so you will get to that point as quickly as possible and that way you can have your sight back in a much clearer way, if that is what is needed. As of yet, it has not been decided nor determined in any way what is yet to unfold here. The sight has to do with the fact of the shingles and the stress of the heart attack and the recovery of that and the pressures that changed within the body due to the stresses of both illnesses. We are trying to help bring about a balance through these stresses as well as to the different flow of energy in the body that was created by these illnesses and the stresses and we are also trying to find a way to bring about an equalization of pressures in the body, both inner ear and the eyes and in the blood, so that you have more the pressure balance once again that might bring you back into a better place than you have been in recent times. As far as the back is concerned, we are not sure how to remove some of the calcium deposits that have accumulated here. There are some and it is causing some pressure and some pain because of that and

the stiffness is there also because of the calcium accumulation. Calcium is something that does develop over a period of time on people's joints and bones and what we are hoping is that it will not keep accumulating. Your diet is a good diet. It is helping to keep that from taking place. Also some of the supplements that you do take also help to balance some of that out. The muscles in the back will strengthen as you are riding your bike and as you are doing some walking as well. It will help you to limber up those regions that are calcifying through these actions of movement. The more that you are stationary, the more the calcium does cause calcification and a stiffening of these regions which could lead to pain as you are moving around. There is also across the lower back an accumulation of stress there as well as up in the upper right-hand quadrant of the shoulders. These two regions are areas where you hold stress a great deal. The young lady by the name of Sue Bedeck (sp) has been helping a great deal in the alleviation of these stress points and will continue doing these processes as she works with you to help alleviate these stress points and to keep the energy flowing in these regions rather than blocking up. Do you have any statements or questions at this point?

John Well, the other problem, of course, that I have is my legs which is due to calcium deposits, I assume also. I keep them as warm as possible and we are hoping that some of the treatments that we are having will relieve an awful lot of that problem with the legs and the circulation problem that exists there. Also we've been trying to get in touch with Alex Orbito through Dr. Roben (sp). The ninth of the month has mentioned as a possibility of his going to Texas and we might be able

to get him to come here to do some psychic surgery. I don't know about the followup or whether he will be available but those are some of the things that of course that we're dealing with now.

Jim We have been working on this as well and we hope that in time you will be able to see him. His schedule is such right now that they have him booked pretty solid and we have not been able to get to him through spirit to communicate to him a way of having him reevaluate his schedule and arrange it in such a way that he would have the freedom when approached on this to come by here to see you. We are hoping that in some manner we might be able to have you two connect. As of yet, we do not know how that will be done. He is not responsive from the psychic level to what we have to offer him. He is only in communication with a certain element and that element is of a nature that is not truly cooperative with our energies at this time because he did not look upward to communicate with those of an upper nature. They are involved within a level of service and activity on the plane that they are existing on and do not pay much attention to elements beyond them to communicate and to receive. Therefore, we are hoping that you will be able or others will be able to communicate with him more on a physical level. And in the meantime, we will do what we can to help clear his schedule, that we can do, to help bring about the availability of him to come by here to see you before the ninth. We are not sure yet though if that will be workable only because of his stubbornness and because of his schedule that others have put upon. He would be able to do some good in alleviating some of the problems that you are having. We are not sure how receptive you will be to the element of

psychic surgery and, therefore, we do not know how much will actually be able to be removed from you at this time. It has to be in the process of psychic surgery that you are willing to let go of all and believe it all will be removed from you and it has to be a total release in order for all tissues that are damaging to a system to be removed. And at times because of the stress and because of your own consciousness of focus and doing for yourself, you might tend to hold on to these issues and these tissues and these elements of yourself and not let go of them totally and, therefore, not receive the complete healing that you might otherwise. So if he does come and if he is able to produce a surgery for you, release and let go. Truly let yourself go into the hands of God at that moment and allow the healing to manifest. Circulation problems in your legs are caused by a lack of flow of blood, as you understand, into these areas because of constrictions and narrowing of capillaries and arteries and veins in these regions. Niacin, as you know, might be able to help get some circulation moving in these regions or niacinamide, but anything that you might take to do this you would want to first check with your medical doctor to make sure that you will not be affecting the other elements and other nutritional supplements and other medicines that you are taking. It could affect the nitroglycerine that you are taking at times for your heart and you would not want to, in a sense, disrupt that so you would want to check with him to make sure that there would be no disruption of that chemical and cause an imbalance. Also, the muscles have weakened in the legs themselves and this has kept the blood from flowing into these regions as much as possible so by working those muscles as much as possible during the day, it will allow more

blood to move in these regions of the lower extremities and help to warm them as well as to feed them and nurture them with the supplements that they need, the nutrients that they need.

John I'm also on Procardia which I've been on for quite some time which I understand addresses some—it's supposed to address the circulatory problem. I'm not sure exactly what the Procardia—I have also thought about the possibility of discontinuing its use if it's reached its sufficiency of help.

Jim This is something we would not recommend only because it would create a disruption within the body chemistry at this time. It might create more stress upon you than the lack of stress so we would consider you discussing this further with your medical doctor and taking it into further advisement with him. It is something that at this time is serving you and it would advisable to do the things that serve you to keep you in good balance and health. We do not wish you to build the stress upon your body again to where you might hurt yourself or affect the heart in any way and this does help to keep that from developing.

John With respect to some of the other questions that I had here, is it appropriate to pursue some of the other questions?

Jim Yes, that would be fine.

John At my home in Kalamazoo, of course, Tom Beaver has been assisting from time to time but his involvements at the present time make him very uncertain about the extent of his participation and I would assume that sooner or later he may wish to move on. I'm not quite certain about his future.

Jim As far as his future is concerned, at this time he is not looking to actually marry because he sees some concerns within the relationship that he is in and he is not sure that he wants the emotional disturbances that would come with the marriage. And so you're not sure at this time, neither is he, as to whether he would move into a marriage pattern or not. Currently we would have to say we would hope not, only because it would disrupt him somewhat by pulling him more back into the world and creating a flow back into the negative regions of his life rather than upward in spirit. We want him to move more into the freedom of himself and into the spirit of himself, but that is up to him to decide. He does have an element or obligation with his woman that he needs to clarify and move on from. If he decides to move into a marriage, it will be because he needs that marriage within himself in order to feel full and satisfied within himself and taken care of. At this time he is looking for someone to take care of him and he was hoping that she would be able to do that. We are trying to bring him into an element of understanding that he would do for himself and take care of himself, but he is a procrastinator in this element and will not do as we have dictated to him to in a dream state. Therefore, it is a possibility that in the future he will be moving into a relationship with a woman and moving into a marriage just to be taken care of. If that is what he wishes, that is fine. As far as with you and the house, let him stay for a period of time as of yet. There may yet be a need for him within the next five to six or seven months. In the period of seven months if you find that he is no longer really needed with you at that time or in the household, then you might reconsider but we would request that you hold for the next six to seven

months with him, give that period of time for him to move as well as within you to move to a greater understanding between you two so that the energies are clear and that when the time comes, you can then make a decision. Is that clear?

John Yes. The biggest concern I have with him in the home is his living habits as I see him as sloppy in his living habits. I find it somewhat difficulty to have that disorder in my own home but it's something that he's doing to himself in the upper house and there is very little I can do about it. I have called it to his attention.

Jim We have, too, and this is something that is a reflection of his own disorder in his consciousness. He would like to think himself as very ordered and very controlled and very disciplined but he is not. He is just the opposite and this is why he is looking to marry in order to have someone to do that for him because he does not wish to do it for himself. We are hoping that in time he will be able to move out on his own accord and you will not have to deal with this at all but there is some elements of karma between you two and they will be resolved within the next five to seven months so we ask for patience in this and in this way you will be alleviated of that obligation and you may be freed of the involvement with him at that time. In that time period he might be able to be of greater service to you as well. We are hoping to awaken him to that and hopefully he will be of greater service to you in these next few months.

John I spoke with you earlier about my forgetfulness which you have stated that this will clear up over a period of time, Of course my.. (audio break)

Jim As far as your memory is concerned, we are doing what we can as well as you. Within the meditation structure, it is just a matter of clear focus, the holding to the focus of offering your life to God so just keep focusing into loving God more each day and allow that to be the focus of your meditation and in time it will come forward for you and clarity will be there for you. As far as the memory within the physical, remember this. You are moving above the mind and so the mind will fight you for a while. You must win the battle so you must move to the little wars order to win the greater war. Let the mind struggle and fight if it wishes but do not get into it. Rather rise above it each day by offering your love and your praise to God by chanting the names of God. In this way the mind will eventually become disciplined and will fold itself unto itself and offer itself unto the graces of God and work with you instead of against you. That will take time for it to happen.

John With respect to Bruce and Darby, I feel as if this is a good relationship and it should develop into something that would be significant in Bruce's future and his relations with me as well as with the Foundation. Do you agree?

Jim Most definitely.

John Is there any advice that you have to offer concerning that relationship?

Jim None. It is doing well and we have nothing that we could share that would enhance or change it. It is a relationship of great love and it is a blessing that these two have come together and it is a blessing that was brought forward by the traveler in order that Bruce might be able to do work that he needs to do in the world and that Darby might be able to do the work that she needs to do in the

world as well. And so the traveler saw fit that the blessing of the two coming together as one would be a blessing not just for them but for the many around them.

John To into the matter of Rhea, I've been really encouraged what the new medication has done for her. It sounds as if she has come up with a degree of alertness that is far beyond our expectations. We thought for some time that she was ready to make her transition but now there seems to be a new injection of life that has come to her, a new awareness, so to speak, and so it has been a great deal of love and satisfaction to me to see this happen.

Jim Each day she must look out those eyes and make a decision as to how involved she wishes to get into the world once again, for she had truly retreated from the world a great deal and was really more in the inner regions and now that she is coming forward once again, each day she chooses back to be more in the inner world and to be involved again. It will just take time for her to feel comfortable enough to move back into the world with greater involvement. Give her time and give her attention. Those are the two things that will allow her to come forward the way you seek it to be.

John Her love is something that is the most beautiful thing to behold. When I'm with her, it seems as if it's pure and unconditional love that exists. There is no auditory communication to disturb that relationship and there is nothing but pure love and it's something that has been a source of great satisfaction and growth as far as I'm concerned to have such a thing happen. It's so beautiful it's hard to even describe the beauty that resides there.

Jim The love is there. It has always been there and is just allowing itself to move through her into you more each day in a very unconditional way. This is something that you need in order to support yourself in the actions of life, involvement into the world, the Foundation, the ministry, and your own service unto yourself. And so she is doing a great service unto you by giving you the love unconditionally in this manner so that you can go forward with that love to be of service in all elements as we have discussed.

John To get to the Foundation, as you know, we recently had a board meeting and I know that Glenn has some degree of dissatisfaction with a couple of our members of the board and is requesting to enlarge the board somewhat. While this may be desirable over a period of time, it seems to me that we should go pretty slow in enlarging the board, that the people that are there need to be educated to our purpose and have an understanding so that they, too, can help develop new members as time is required. I know that Glenn is having problems, particularly with Janis and with Orest in his summation of things and Orest really has been an advocate of our financial position that is very difficult to comprehend at this particular time. Those are some of the problems that exist there with the board of directors.

Jim We trust that you and Glenn and the board will be able to work these issues out. These are the elements of the world and these are things that must be taken care of within the world by those involved and they will be done so. Glenn is trying to develop within himself an understanding of what the next steps are for him and the Foundation as well and he will try and he will build the board around him so

that they will work with him and for him to help him accomplish the goals that have been set. He will build a good board for you, so trust that and if in time he feels that Orest and Janis is not serving the way that he needs them to serve him and the Foundation, then trust in his judgment there and allow him to move forward in whatever manner he needs. We would like to see them including within the activities of the Foundation and the board, if at all possible, one because Orest will bring in the consciousness of the loving heart and will help people to focus into that more than they would otherwise. And Glenn is very uncomfortable with that loving presence that Orest brings in because it is so unlike Glenn. Even though he talks of the loving spirit, he does not really promote it nor does he share it or live it because he does not experience or understand it within him. And so Orest is an enigma to him in comparison to some of the other people on the board at this time. As for Janis, he sees a woman of great strength and great capability and he does not like this. He likes a woman who is rather subservient to him or of service to him rather than one of equal stature and so because of that, he wishes her to be removed from the board so that he does not have to deal with these type of energies. He does not like the woman that is so strong that she can stand up equal or above him and dictate in ways that he is uncomfortable with. So in time we will have to see what you, what Glenn, and what the board decides to do. It may be that both Orest and Janis will interpret the energy flow as is taking place from Glenn to them and decide to depart from the board of their own accord because they do not feel the harmonious energies that they would like to feel towards them and with the board

because of Glenn's considerations towards them. We will give it time to allow the board to mature and to grow at the same time. This is the only way that you will bring in those that are willing to serve and willing to participate in the steps needed to bring a maturity to the Foundation as well as the direction.

John It has been my hope that his wife Eva might be a spiritual force in his life that could over a period of time bring him in more to the spiritual concepts. I know that seems to be her goal. Whether or not she can achieve much of that remains to be seen, I would suspect. But any event, I do find her to be a very beautiful light.

Jim Note that Glenn is locked within the ego and within the mind. When one is locked there in his own consciousness, it is very difficult for spirit to come in truly present itself in the light that it is and have it be understood because it tends to negate much of the ego and the mind and it tends to bring the person who is caught up in ego and mind into a place of uncertainty and unsteadiness and it makes them feel as though they are not as big and as important and as knowing as they would like to think themselves and see themselves in the world and in themselves. And so be aware that he repels the light to some extent. He will see it outside of himself only so long as it does not go inside and disturb the ego or the mind. The love and the light that Jim presented to him disturbed him. The love and the light that Orest presents to him disturbs him. The love and the light that Arthur Dulay's (sp) paintings presented to him disturbed him. The love and the light that Janis presents to him disturbs him. The love and the light that others present to him from a very clear spiritual place or from a place of spiritual understanding and striving toward that clarity disturbs him. You have to live with

this for this is who he is. It is important that the ego and the mind of Glenn does serve the Foundation to bring it into a position in the world that it needs to be in order to accomplish the things of the future. And whether or not Glenn comes into the spirit is of his own accord and design. We will use him in accordance with the capabilities that he is able to use for the Foundation's benefit and if in turn he will respond to the gifts that we will give him and the service that he giving to us in the Foundation, he can grow beyond the ego and the mind and come into yet a greater clear space within himself spiritually. Eva is one who holds it before him but whether he will reflect and see and open up to that or not is yet another story.

John It's very difficult for me personally to be there day in and day out and associate with Glenn and have to always be on guard that I do not become too loving with him knowing well that that turns him off. On the other hand, it's something that I certainly can deal with and will deal with. As a typical example, when he gave me proposed remarks for my talk to be given at the conference, it's a highly intellectual thing and on a level and the kinds of things that he would like to have presented but the kind of thing that really is not John Fetzer. So it would be very difficult for me to follow the outline and the kind of remarks that he has suggested for my speech at the time and it comes right back again to address the same problem of his being threatened by matters of spirit and love.

Jim Let him be threatened but you must be yourself. Let him be threatened and you must come from your heart John. Take those things that he had presented to you and take them into your heart and find a way that you can express the love of

those issues, of those understandings, that he wishes shared and share from your heart about those things or share from your heart other elements of this about the Foundation and its development and yourself and to people there. Do not be caught up in his mentalizing and his issues that he needs to have presented to the Foundation and to the people in order to enhance his ego or the ego of the Foundation. That is not your role. Your role is the loving heart, the loving light, so be that.

John Amen.
